

# Welcome to Marshall Springs Open House

An overview of Marshall Springs Middle School's teaching teams, programs, and activities for the Open House event.

Welcome to  
Marshall Springs

# Welcome to Marshall Springs

We are thrilled to have you here at our Open House, where you can learn more about our unique programs, dedicated staff, and vibrant community. Join us as we showcase the opportunities available for your child at Marshall Springs.

### Dedicated Support Team

Our office staff plays a vital role in the daily operations of Marshall Springs by managing administrative tasks, providing support to teachers, and assisting families with inquiries. Their dedication ensures that both students and parents feel welcomed and informed throughout the school year.

### Efficient School Operations

They are responsible for maintaining records, managing schedules, and facilitating communication within our school community. Their efforts contribute significantly to creating a positive and efficient learning atmosphere for all.

### Commitment to Student Success

With a commitment to student success, our office staff organizes events, coordinates resources, and ensures that our school environment remains safe and conducive to learning.

# Meet Our Office Staff

## Inclusive Learning Environment

The Grade 6 team focuses on creating an inclusive atmosphere that supports diverse learning styles, ensuring every student feels valued and engaged in their education.

## Inspiring Curiosity

Through innovative teaching methods, the team aims to inspire curiosity and a love for learning, encouraging students to take ownership of their educational journey.

## Personalized Learning Plans

Regular assessments and feedback are integral to the Grade 6 program, allowing for personalized learning plans that cater to individual student needs and progress.

# Introducing Grade 6 Team.

## Strong Relationships

We know students learn best from teachers they trust and have strong relationships with, so we make it a priority to connect with kids and build trust.

## Innovative Teaching Strategies

Teachers in the Grade 7 team utilize innovative teaching strategies to foster student engagement and ownership of their learning. This includes hands-on activities and interactive lessons designed to inspire curiosity and enthusiasm.

## Real-World Connections

The Grade 7 curriculum is designed to connect academic content with real-world applications, encouraging students to see the relevance of their learning. This approach helps students build the skills necessary for success in higher education and beyond.

# Introducing the Grade 7 Team

## Personal Growth and Academic Achievement

Our Grade 8 team is dedicated to fostering a supportive learning environment that encourages students to develop their individual strengths. They focus on academic rigor while also promoting self-confidence and resilience among students.

# Introducing Grade 8 Team

# Introducing Grade 9 Team

## Personalized Support for Transition

The Grade 9 team is dedicated to helping students navigate their transition to high school by providing personalized support and mentorship. They focus on fostering academic skills, social development, and emotional well-being, ensuring students feel confident and prepared for the challenges ahead.

## Workshops for Essential Skills

Through workshops and individual counselling sessions, the Grade 9 team equips students with essential skills such as time management, study techniques, and goal setting to promote academic success.

## Collaboration with High School Staff

The team collaborates with high school staff to ensure a smooth transition, sharing important information about high school expectations, programs, and extracurricular opportunities that await students.

# Engaging Real-World Learning with CTF

The Career and Technology Foundations (CTF) team offers dynamic, hands-on learning experiences that bridge classroom theories with practical applications, helping students build essential skills for future careers.

# Health and Physical Education Team

The HPE team is dedicated to fostering a culture of wellness, promoting physical fitness, and encouraging healthy lifestyle choices among students. Through various activities and programs, we aim to engage students in being active, building teamwork, and developing lifelong habits for health.

# Strong Relationships

We know students learn best from teachers they trust and have strong relationships with, so we make it a priority to connect with kids and build trust.

# Building a Solid Foundation

- School-wide Socio-Emotional Learning
- School-wide screening and support
- Culture, Community, Diveristy homerooms
- Marshall Madness!

# Overview of 'Springs Time' Program

This program is designed to enhance student learning through supplementary support and enrichment activities.

- 2 blocks per week
- Targeted Support and Enrichment
- Student Choice and Exploration

## Homeroom Periods

Our homeroom periods are used to build community, connections, and empathy. In October, we will begin regular homerooms of Marshall Time, WOW, and Culture & Community.

# Elective Courses

At Marshall Springs, we provide a wide range of elective courses that allow students to pursue their personal interests and talents. These courses are designed to foster creativity, critical thinking, and hands-on learning, offering students the chance to explore subjects such as arts, technology, and more.

# Athletics

In addition to elective courses, we also offer various extracurricular activities that encourage social engagement and personal development. These activities, including clubs and sports, provide students with opportunities to connect with peers, develop skills, and participate in the school community.

## Diverse Club Options

Our school offers a variety of clubs such as the Crochet club, Cheer, and Games club, providing students with opportunities to express their creativity and engage in hands-on learning.

## Enriching Extracurriculars

Extracurricular activities, including sports teams and music & performance programs, foster teamwork and collaboration among students, enhancing their social skills and personal growth.

## Personalized Involvement

Students are encouraged to take part in clubs that align with their interests, allowing them to make friends, gain leadership experience, and contribute to the school community.

### School Messenger & Website

Our school communicates important messages through a weekly School Messenger on Sundays, and the school website to ensure the school community stays informed about key events and updates.

### Grade-Specific Updates

Grade-specific weekly messages are sent to families to provide tailored information about their child's progress, upcoming assessments, and important reminders, fostering a supportive learning environment.

### Utilizing Google Classroom

Google Classroom is utilized for sharing assignments, resources, and feedback, allowing students to stay engaged with the learning process and track progress effectively.

### PowerSchool

Power School provides ongoing access to students' grades and attendance, enabling parents to monitor academic performance and stay involved in their child's education.

# PowerSchool

Power School provides ongoing access to students' grades and attendance, enabling parents to monitor academic performance and stay involved in their child's education.

# Engaging Our Community Through Volunteering

We invite parents and community members to actively participate in our school by volunteering for various opportunities, including positions on our school council, to help shape our school environment and support student success.

# Responsible Use of Personal Mobile Devices

At Marshall Springs, we understand the cell phones and other PMDs can cause distractions and disruptins to student learning.

## **Personal Mobile Devices (PMDs) at Marshall Springs** (cell phones, tablets, Bluetooth headphones)

### **Away for The Day**

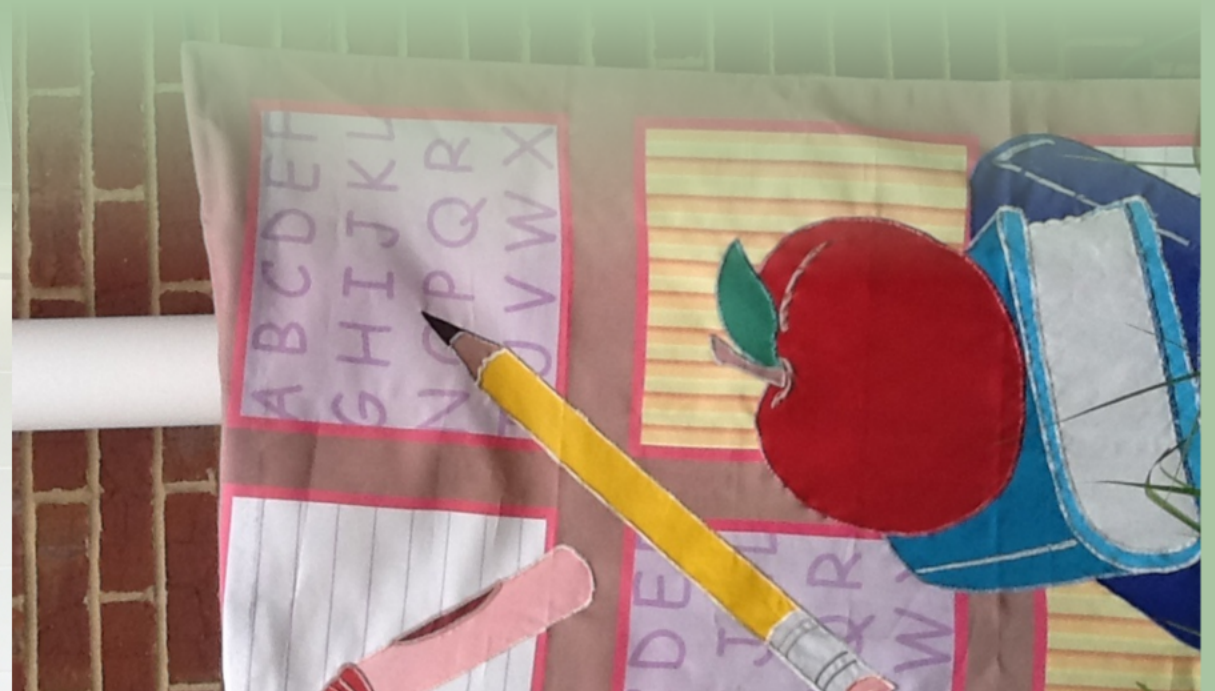

- PMDs must be in student lockers during all school time.
- PMDs may only be used outdoors during the lunch period.
- Special consideration for phone use will only be given to students who require their device for documented medical requirements – this process must be completed by school administration.

Thank You for  
Your Participation

# Thank You for Your Participation

We appreciate your time and interest in our school community. Please feel free to ask any questions you may have.
